

REMARKS

The present application has been reviewed in light of the Office Action dated January 6, 2004. Claims 1-17 are presented for examination, of which Claims 1, 7, 12, and 13 are in independent form. Claims 14-17 have been amended. Favorable reconsideration is requested.

The Office Action states that the present application is required to be restricted to one of the following inventions:

Group II: Claims 14-17 -- drawn to operating upon an input data, from an upstream pipeline process, if an internal buffer is not full and stalling the upstream pipeline process if the internal buffer is full.
